

# Association Endorsement Request Letter

## Purpose

This letter helps members request a formal public position or endorsement from professional associations regarding targeted amendments to California pet laws.

## Sample Letter

Dear Members of the Board,

I am writing to request that our association review and consider taking a public position on recent changes to California pet laws that are impacting responsible businesses, consumers, and animal welfare.

While these laws were intended to protect buyers, evidence shows they are reducing access to responsibly bred pets, increasing consumer exposure to scams, and creating unintended economic harm across the pet industry.

I respectfully ask the association to evaluate the proposed amendments supported by the Fair Pet Laws Coalition and consider issuing a statement or legislative letter urging lawmakers to address these concerns.

Sincerely,
